

Pupil Premium 2017 - 2018

Pupil Premium funding is sent to schools based on the numbers of pupils in the school who are eligible for Free School Meals (FSM). In 2012-2013 it was expanded to include all children who have been eligible for FSM within the last 6 years. This money is allocated to initiatives to ensure pupils reach their full potential, both academically and socially.

For 2017 - 2018 the school has received £36,720 in Pupil Premium funding.
Money spent - £37,700

This money is being used to help provide for the following initiatives:-

Barriers to learning	Use	Success Criteria	Money allocated	Impact on children
Many children arrive at below age related expectations and with social and emotional needs	Once again we are using money to enable us to employ Key Workers in our Reception classes	Children of all ability levels will have access to high quality learning in small groups.	£25,000 for Key workers and staff to provide interventions	Children make excellent progress in Reception from low starting points. A significant number reach the required level of development at the end of the year. This gives our children a secure foundation on which to build going into Key Stage 1.
Although children make good progress in Reception, many non-SEND Pupil Premium children still need to accelerate progress throughout KS1	To pay for the provision of appropriate interventions throughout the school	Children who are behind or falling behind will have 1:1 and small group support.	As Above	The difference in attainment between Pupil Premium children and Non PP children is diminished at the end of KS1. Also the difference between our PP children and PP children nationally is diminished.

Barriers to learning	Use	Success Criteria	Money allocated	Impact on children
Many Pupil Premium children do not have the opportunities to experience different environments and the activities that go alongside.	Funding / subsidising places on school trips	To enhance the curriculum, ensure the children are able to participate and to give children the opportunity to experience new and challenging activities. No trip will have to be cancelled due to lack of parent contributions.	£500	This will allow the children to experience outdoor activities that they might not have the opportunity to take part in elsewhere. No child is prevented from taking part in these activities
A significant number of our children struggle with learning phonics, and need to accelerate progress.	To continue to purchase individual Phonics tracking books to enable more detailed tracking	Tracking more detailed and ensures early intervention to close the gap between PP and non PP children	£200	Pupil Premium children will make good progress and attain as well as national levels in the end of the year.
A significant number of our children have social and emotional needs	To train and employ a part time member of staff to run Nurture Group for those children who need support with social skills	Nurture group up and running with two sessions per week.	£10,000 (Same member of staff runs Breakfast Club and some After School Club)	Children with low self-esteem gain in confidence. Those children with poor social skills will also gain in confidence as their skills improve
All staff need to be trained to a high enough standard to be able to support children in the classroom and through appropriate interventions.	To enable quality staff training by engaging speakers from external agencies and sending support staff on specific training courses	Training is of high quality and staff are able to support all children in the classroom and through interventions.	£1,000	The implementation of proven strategies will have a positive impact on children's attainment and raise the achievement of our disadvantaged children.

Barriers to learning	Use	Success Criteria	Money allocated	Impact on children
A high proportion of children have speech and language issues and require targeted support	In-house staff training for TAs on areas such as language and communication skills	TAs able to deliver high quality language support	DH role as SENCO and TA line manager – money already allocated	Children with poor language and communication skills will be able to access additional support from skilled members of staff
A number of children arrive at school without having had breakfast	Providing subsidised places for Pupil Premium children at Breakfast Club	Children will have eaten a healthy breakfast before they start school in the morning.	£400	Children will not be hungry and therefore more ready to learn.
Families of children over 5 years old are not entitled to free school milks	Providing free milk at morning break for those children over 5 yrs old	All children entitled to pupil premium have access to milk at morning playtime.	£400	Pupil Premium children who choose to have a daily drink of milk have access to it and are not deprived of a nourishing drink for financial reasons.
School uniform is compulsory and not all Pupil Premium families can afford to replace it when it wears out.	To subsidised the cost of school uniform for Pupil Premium children	Those families in receipt of Pupil Premium who need help in buying school uniform will be able to access funds.	£200	Pupil Premium children will have the same access to new uniform as non-Pupil Premium children.

Data is reviewed as an ongoing process and this strategy will be formally reviewed at the beginning of the academic year September 2018.
